RE: Withdrawal of Products from Sale

As products age, they become increasingly difficult to manufacture and support. Wherever possible we endeavor to provide as much notice as possible of our plans to either withdraw a product from sale or, when we anticipate that we can no longer provide effective maintenance support, to declare a product obsolete.

Please see below for the latest product sales withdrawal notifications. For both product families this continues from the advanced notice provided at our annual customer User Group sessions during November and December 2021.

The following products will be withdrawn from sale shortly

Product	Description	Suggested Replacement	Effective date of withdrawal from sale
ST900 Traffic Signal Controller	All variants including the ST900 and ST900 ELV	ST950 Traffic Signal Controller	30th November 2022
ST750 Traffic Signal Controller	All variants including ST750, ST750 ELV and ST750 SE	ST950 Traffic Signal Controller, in particular the ST950S (Small Intersection) and ST950SP (Small Pedestrian)	30th November 2022

The primary reason for the withdrawal of sale of both the ST900 and ST750 is the obsolescence of certain key components and the ongoing increase in costs of manufacture of both products. A number of shared key components are now in limited stock and are being reserved to ensure the products can be maintained and repaired for years to come. Both the ST900 and ST750 will be available for very limited sale in certain circumstances but we cannot guarantee we can meet any sales demand past the effective date of withdrawal from sale.

Please note that we are not currently making the products listed above obsolete and will aim to offer full maintenance support over the medium term period. By providing this notification we hope you will be able to plan for your procurement activities accordingly.

Yunex Limited

Registered office: Sopers Lane, Poole, Dorset, BH17 7ER Registered no: 13199800, England & Wales.

If you would like to discuss the impact of this notification in your area, please contact your local service center or your Regional Sales Manager in the first instance

For further information on the ST950 Traffic Signal Controller please speak to your Regional Sales Manager, our Product Management team or visit our website at
